

Habitats

Hannah Pang

Illustrated by Isobel Lundie

BOOK TALK CARDS

YEAR
4

THEMES:

- Habitats
- Nature
- Animals

ABOUT THE BOOK

Discover a world of everchanging habitats, from mountain tops to forest floors, vast oceans to shifting sands. All these animal habitats connect to form one amazing home: Earth.

OUR THOUGHTS

"The interactive split pages work well. With loads to look at and accompanied by interesting information, this is a great book for leisure non-fiction and topics."

TIME TO TALK

- 1 Which of the layers of the rainforest would you most want to live in and why?
- 2 How have the animals adapted so that they can survive in the desert?
- 3 How are the animals in the deep sea different to those that live in the other layers? Which layer do you think is the most interesting and why?
- 4 Why do you think these ancient woodlands have inspired many fairytales?
- 5 In the ancient woodlands, which animals are your favourite and why?
- 6 In *Majestic Mountains*, which of the habitats would you most like to visit and why?
- 7 The Florida red-bellied turtle and alligators work together to survive in *Natural Springs*. Which other animals do this?
- 8 Which habitat do you think is the most interesting? Explain your choice.
