

Decodable books for Sound!Start Phonics

Sound!Start Phonics is proud to be working in partnership with Peters to provide schools with a complete range of fully decodable books carefully matched to each stage of the programme.

The reading books aligned to the Sound!Start Phonics programme include a combination of fiction, non-fiction, and traditional tales, along with a small number of “step-in” titles, many of which will already be on your bookshelves.

Within the programme the books are used for Guided Reading Lessons and as part of your “Reading at Home” provision. **We therefore recommend purchasing 8 copies of each title for one-form entry settings and 16 copies of each title for two-form entry settings.**

Use the checklist below to tick off any books you already have in school, then mark up those you wish to order. Send your completed form to hello@peters.co.uk and we will put together a quotation for you with a competitive discount.
